Re: Heritage Stone Work Health & Safety Management

To whom it may concern

I am writing to confirm that Injury Prevention & Management (IPM) have been engaged by Heritage Stone to assist them in continuing to improve their Work Health & Safety (WH&S) Management.

IPM have commenced this work by delivering management awareness WH&S training and reviewing current WH&S systems and processes. Heritage Stone have demonstrated a willingness to develop effective strategies to manage WH&S effectively within their business and have a comprehensive suite of processes to manage WH&S risks.

We are looking forward to an ongoing working relationship with Heritage Stone as they work inside the safety circle® and achieve their goal of “zero injuries” and the leading craftsmen in stone.

Yours sincerely

Martyn Bradfield
